RAE Systems to Present at American Electronics Assn. AeA Classic Financial Conference

San Jose, Calif. – November 3, 2006 – RAE Systems Inc. (AMEX: RAE), a leading global provider of rapidly deployable sensor networks that enable customers to identify safety and security threats in real time, today announced that it will present at Session 2 of the AeA Financial Conference being held November 7-8, 2006, at the Monterey Conference Center in Monterey, California. RAE Systems is scheduled to present on Tuesday afternoon, November 7 from 2:00pm to 5:00pm and Wednesday morning, November 8, from 8:00am to 12:00pm, in room 308 of the conference center. A live web cast of the presentation will be broadcast at 9:00am Wednesday, November 8, 2006 at http://www.corporate-ir.net/ireye/conflobby.zhtml?ticker=RAE&item_id=1388343 and will be available for rebroadcast for 90 days.

“We look forward to meeting with the investment community and sharing our vision for protection through detection solutions at the Kaufman Conference,” said Robert Chen, RAE Systems’ chief executive officer. “We also look forward to introducing our new chief financial officer, Randy Gausman, to our investors.”

About RAE Systems

RAE Systems is a leading global developer and manufacturer of rapidly deployable, multi-sensor chemical detection monitors and video networks for homeland security and industrial applications. In addition, RAE Systems offers a full line of portable single-sensor chemical, radiation detection products as well as fixed and mobile digital video recorders. RAE Systems’ products enable the military and first responders such as firefighters, law enforcement and other emergency management personnel to detect and provide early warning of weapons of mass destruction, radiation, toxic industrial chemicals, volatile organic compounds and petrochemicals. RAE Systems’ products are used by many U.S. government agencies, including the Department of Homeland Security, the Department of Justice, and the Department of State, as well as all branches of the U.S. military, and by numerous city and state agencies. Our end users also include many of the world’s leading corporations in the airline, automotive, computer and oil industries. Our products are used in civilian and government atmospheric monitoring programs in over 65 countries. For more information about RAE Systems, please visit www.RAESystems.com
